

TRAP

**A SIMPLE GAME BASED ON HIDING & REVEALING COLOURS.
MEMORISE & TRACK THE COLOURS... OR ELSE GET TRAPPED!**

2-5
Players

Age 6+

About trap

Trap is fun and fast family game that lets children meet head-on with adults.

Stay sharp, watch the board carefully, and do not show your excitement when you know your opponent is about to uncover the fifth cover of the same colour.

The faster you play this game the more fun it is!

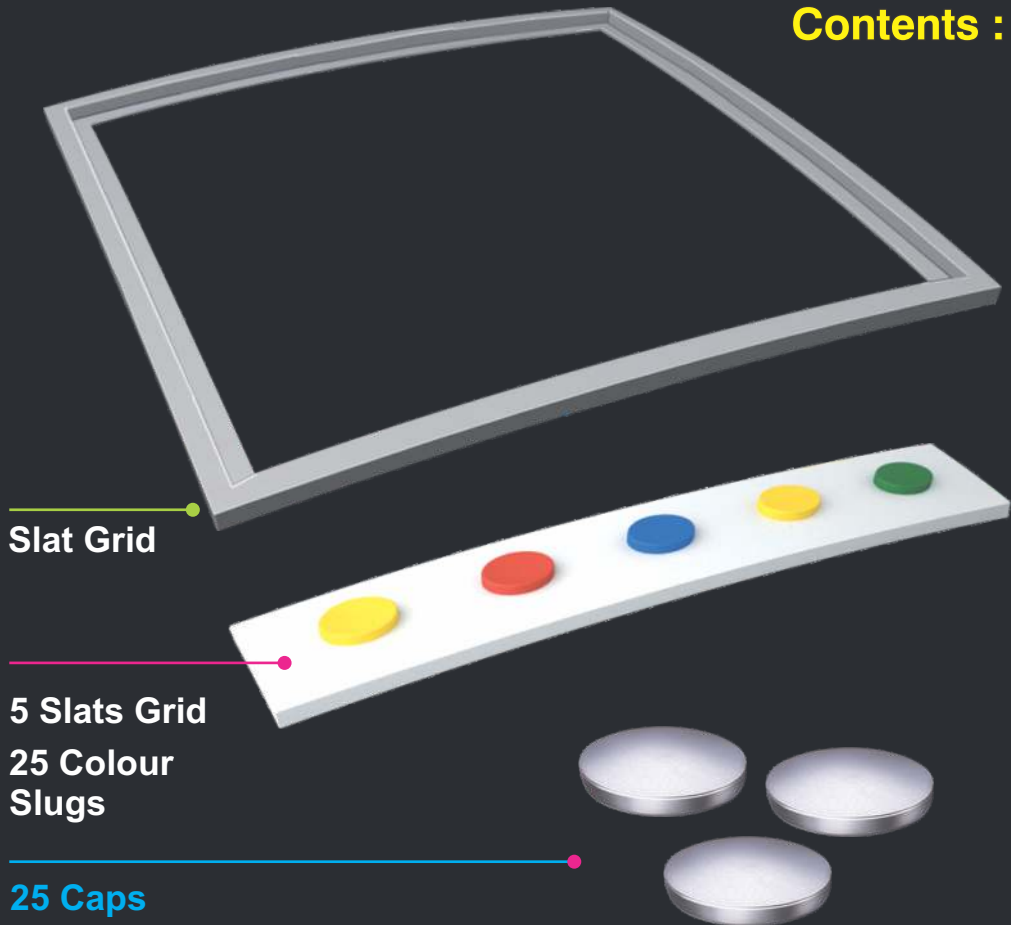

Aim of the game

The first to reveal a fifth slug of the same colour is eliminated.

Set up

The 25 caps cover the board and no colour is therefore visible. Between games, the slat will be moved around and mixed up thus preventing players from memorizing the layout.

Contents :

AN AMAZING FAMILY GAME OF MEMORY & STRATEGY!

How to play

You have to remove / move 3 caps during each turn.

Once you lift a cap, you will have to decide whether you will remove it or move it. If you choose to REMOVE the cap, you must place it outside the board. The cap is no longer in the game.

If you decide to MOVE the cap, you can use it to cover any slug on the board other than the colour just revealed.

You cannot pick the cap just placed by the previous player.

You cannot move your cap to cover the slug of the colour you have just revealed.

You cannot move two caps at the same time.

If you reveal the fifth slug of the same colour, you are out of the game.

TIP: As you play the game, memorise the positions of the colours, and ensure you are not the one to reveal the fifth face of any colour. Instead you must work to trap your opponent into doing so.

GAME PLAY

The game can be played with two or more players.

If there are only two players, the first one to reveal the fifth face of the same colour loses. The other player wins.

The first player has to eliminate the first cap, as he has no other option.

If there are more than two players, the first one to reveal the fifth face of the same colour is out of the game, along with the revealed colour.

The rest of the players continue the game till only one winner remains.

NOTE

You should move the slats around at the end of each game to ensure the colours are in different places every time.
